

Where is GRIPSERT used?

Our customers are mainly contractors tendering for councils' parks and infrastructure projects, Ministry of Education school upgrades, or contracted to ACC for housing modifications. Gripsert is also suitable for smaller building projects.

Gripsert has been used by Auckland Regional Council to upgrade ramps at Arataki Visitors Centre in the Waitakere Ranges

Gripsert has been used by the Port of Marlborough to upgrade the foot bridge in the Picton Marina

Gripsert has been specified by architects for ACC housing modifications, for building of permanent ramps, decking and steps

Gripsert has been widely used by Waitakere City Council (now part of Auckland City) for coastal and suburban walkways
